GEL BATTERIES

Many different manufacture's offer gel battery options. Gel cell batteries can power a variety of applications, including automobiles, riding mowers, large and small vessels. In fact, almost all internal combustion engines utilize a gel type battery. These batteries have advanced through the years, and are a great source of power for Motorhomes and other electrified vehicles. Alternatively, you will find a sealed gel battery used for emergency backup systems, which is very useful in areas that do not have stable grid power. The gel in the battery is non-corrosive, and offers a maintenance free experience for consumers. These batteries have a high resistance to vibration and shock, which means movement will not hinder its performance. It contains deep cycle properties, which means it can be charged and discharged several times without affecting its life span. These are not properties that you would find in lead acid batteries.

Advantage of a Gel Cell Battery

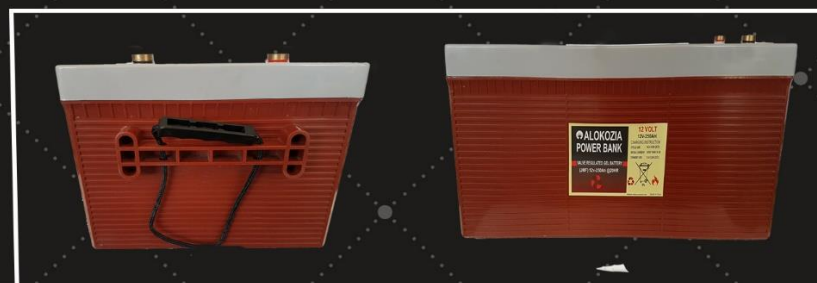

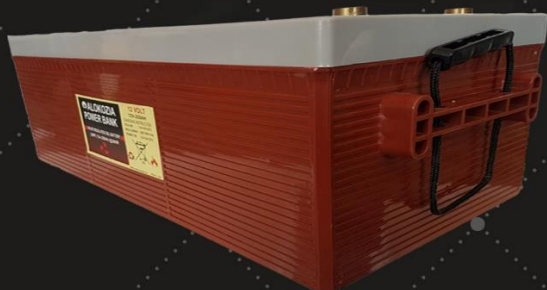

- ▶ *Maintenance Free - No need to top up with water.*
- ▶ *Leakproof Battery - No leaks mean no rust. It is a sealed unit.*
- ▶ *Safe to use - There is no need for additional safety gear to handle these batteries.*
- ▶ *Durable - Will last longer than a standard lead acid battery.*
- ▶ *Wide Temperature Range- These batteries work in a variety of different temperatures*
- ▶ *Shock Resistant - These batteries can be mounted in any position that you want.*

Product Information

Alokozia Power Bank Battery's Valve regulated GEL Batteries the standard by which all other Gel Cell batteries are judged.

Advanced American Technology and the use of the most modern computer-aided design and manufacturing techniques combine to make Alokozia Power bank Battery's Gel Cell Batteries the best money can buy.

Alokozia supplies batteries that are manufactured under the most versatile computer control battery formation system and technology to achieve the highest quality. The automated, computer controlled system provides programmed functions for steps of current, time, voltage, temperature and event control to match the performance specifications of your application requirements.

Tech Specs

- **Weight: 72 KG**
- **Shipping Weight: 73 Kilograms**
- **DC Output Voltage: 12 V**
- **Type: Valve regulated GEL Battery**
- **Manufacturer: Alokozia/China**
- **Amp/Hr: 250**
- **20 Hr. Rate Amp/Hr: 250**
- **Charging Voltage Standby Use: 13.6–13.8 V**
- **Cycle Use 14.5-14.9v(25c)**
- **Made In: China**
